OSAKA KYOIKU UNIVERSITY

2027 Asia Intercultural Communication Program in Osaka

ENJOY, AND LEARN DEEPLY JAPANESE EDUCATION

As a leading university of teacher education in Japan, Osaka Kyoiku University is proud to offer a five-day Intercultural Communication Program. The objective of this program is to deepen the participants' understanding of Japanese culture and education. Participants will attend classes held at OKU and have the opportunity to interact with both Japanese and international students. Additionally, there will be visits to nearby local elementary schools, where participants can observe classes and interact with Japanese children. Our hope is that, through this program, participants will not only deepen their understanding of Japanese culture and education but also gain valuable insights into their own.
